

[illegible][illegible]

- Resistance is given in ohm, $K = 1,000$ M = 1,000,000
Cooperator is shown in μ if otherwise noted. $P = \mu$
Unless otherwise stated, all conductor values were taken in K.
Volts/cm are measured. Dry film point indicated to nearest
micron, using color bar signs with all conductors at normal
temperatures are measured with a spectroscopic beam spot indicated
to nearest micron, using color bar with all conductors at normal
Key: those original, were listed following measurement; those were

ANS SUR LA SECURITE DU PRODUIT

Les notes de la partie sécurité possèdent d'importantes caractéristiques spécifiques par rapport à la sécurité et avant de les naviguer, il est recommandé de lire le manuel de service. Ne modifier pas le navigateur ou vous pourriez endommager le système sécurisé.
